

PlayVet

Veterinary made-to-measure Medical devices

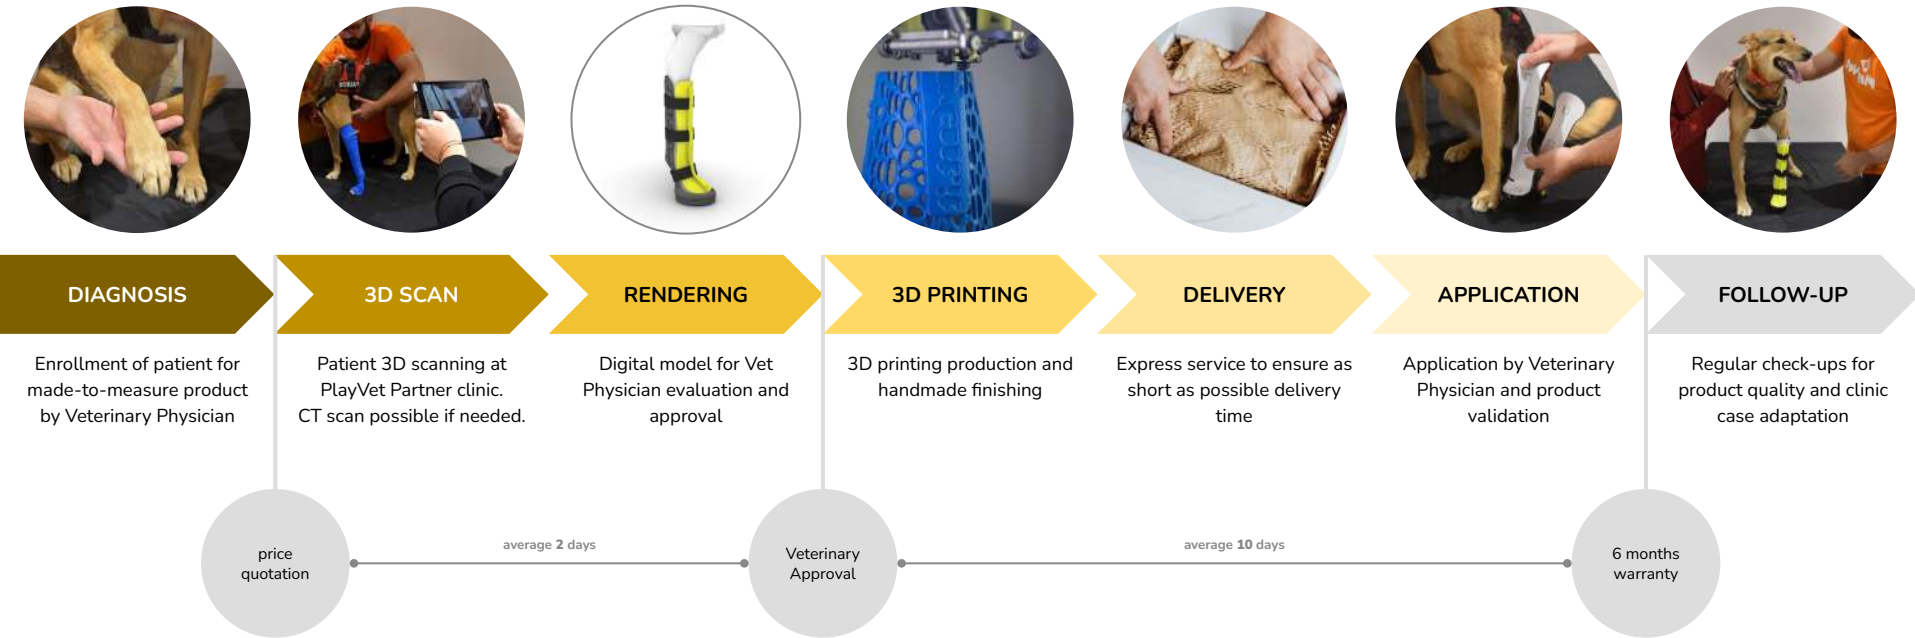

PlayVet is a **3D printed made-to-measure** medical device that improves patient's **quality of life**.

Each PlayVet device is crafted to achieve the **highest quality standards** to support patients throughout their journey.

3D printing, interchangeable parts and prime quality materials guarantee **long life products**, ensuring also a life-long **positive impact** on patient's quality of life.

**Designed by Vets
for Vets.**

HOW IT WORKS

3D SCANNING SYSTEM

Our technology enclosed in a practical iPad+3D sensor system.
PlayTime EASY is easy to use and transportable

About 15 seconds to get the scan done

Directly connected to our cloud system

Easy to use

Supplied with everything you need in a practical briefcase
